Education

Front-End Web Developer Nanodegree, Udacity   May 2025 – Sept 2025

Computer Information Systems, Ashworth College   Jan 2025 – Jan 2027

Objective

Detail-oriented and adaptable professional transitioning from warehouse operations and correctional services to front-end development, seeking to apply problem-solving skills, attention to detail, and a strong work ethic in a dynamic coding environment. Eager to leverage newly acquired technical expertise in HTML, CSS, and JavaScript to create intuitive and user-centered digital solutions.
